### Summary of reasons for decision:

This computer moving image file explicitly depicts sexual activity between a man and a woman within a student/teacher role-play. Because of this role-play, consideration was given as to whether the file promotes or supports, or tends to promote or support, the exploitation of young persons for sexual purposes. The scenario is not realistic in any way. The woman is clearly an adult and she does not present as a younger schoolgirl, and nor is she intended to be taken seriously as one. As such, the scene cannot fairly be said to promote or support, or tend to, the exploitation of young persons for sexual purposes. A restriction to adult audiences is necessary, though, to limit the risk of injury to

the public good from children and teenager's premature exposure to explicit sexual material intended for adult sexual arousal and gratification. This restricted classification places a limit on the right freedom of expression as affirmed by the NZBORA but given the risk of injury to the public good this is a reasonable and demonstrably justifiable limitation on that right.
